Learn more:-

2.1) Negotiation support

It creates a positive business growth climate for:-

- Collaboration between business, the governments of the USA and Mexico and communities.

And delivers benefits from voluntary re-migration;-

The Initiative links your company to benefit from remigration.

Voluntary re-migration + business
=
Successful negotiations

2.2) Funding for job creation

Via deportation cost savings, to be redeployed to assist companies to create USA "offset" jobs lost due to cross border investments.

Innovation
Funding

2.3) New exports and market developments

The U.S./Mexico & European re-migration Initiatives are being launched back to back because:-

- The European Arabic voluntary re-migration Initiative will unlock and open substantial new export opportunities for American companies.

Voluntary re-migration by European Arabic migrants back to Syria, Iraq & other Arab countries

=

Major new export opportunities

Under the Initiative it is recommended that some of these projects are conducted on a partnership basis between U.S. & Mexican companies.

2.4) Strong global promoting of your company as a strategic business partner

1. The growth and development of your own company and it's global competitiveness,
2. A commitment to local economic & job creation and
3. A commitment to social and economic development in countries your company operates in.

Through the utilizing of an interactive, blog linked web promotion, your company is:-

- promoted as a socially responsible company and
- It provides a platform for you to promote jobs and new business opportunities stemming from your company's business.

This brings your company into play in the three critical future directed building blocks needed by companies to unlock new exports, business and markets, the tree being:-

This places your company above the competition

- as a future directed, socially responsible business partner and supplier

At stake is the ability of American businesses;-

- *to compete against international competitors*
- *that take advantage of low wage labor environments*

3) Business critical success factors

Immateral of the nature of the solutions and final renegotiated NAFTA agreement, it is critical for the long-term success of USA businesses that:-

1) A win win scenario is negotiated;

2) The growth of both the USA and Mexico continues;

3) Critical factors to be addressed:-

- 3.1) USA job-losses resulting from cross-border investments;
- 3.2) Mexico's agricultural & farm job-losses;
- 3.3) U.S./Mexican trade deficit;
- 3.4) Worker and business development (Both in the U.S. & Mexico);
- 3.5) The Maquiladora program;
- 3.6) Illegal migration;
- 3.7) Crime and drug trafficking.

At stake is the ability of American businesses

- *to compete against international competitors*
- *that take advantage of low wage labor environments*

The challenges are very big but by creating a positive atmosphere for collaboration between business and the governments of the USA, Mexico and E.U. long-term constructive solutions can be achieved.

It has to be on a:-

- **Collaborative** and **integrated** basis.

4) 8 to 17% growth is possible

Through an integrated approach it is possible to accelerate business growth.

Business growth and expansion of small, midsize to large corporations are the only options.

Through integrated solutions 8 to 17% growth for businesses is possible.

A Second Chance can result in deportation cost and social housing savings exceeding \$8 billion U.S. dollars.

- Freeing funding that can be redirected on an agreed bases for:-
 - Incentives for voluntary remigration;
 - Resettlement and
 - USA job creation through business development,
- **Plus new exports** for the growth of companies that can assist to balance the trade deficit.
